STATUS BREAKDOWN

- ▼ **ACCEPTED:** The file was accepted by the IRS and nothing else is required.
- ▼ **ACCEPTED WITH ERRORS:** The file was accepted by the IRS, but there were errors with employee data (This is usually due to an employee's SSN and name do not match with what the IRS has on file). A large majority of clients leave it in this status and the IRS has historically been fine with that.
- ▼ **REJECTED:** The file was not accepted by the IRS. These files need to be fixed and resubmitted. Our team will make the first effort to correct the error(s), but if we are not able to fix the issue, **WE WILL CONTACT YOU FOR ASSISTANCE.**

CONFIRMATION
